

E:\asterisk_pyramid.cpp

1

Asterisk pyramid; Increments asteriskper additional line.

Inputs: none

Outputs: none

Written by: Jeff Lewis Date: 02/17/2011

Program compiles without error

Program doesn't run correctly

Asterisks are not in columns.

#include "stdafx.h"

```
int _tmain(int argc, _TCHAR* argv[])  
{
```

```
    int column, line;
```

```
    for (line=0; line<10; line++)
```

```
        for (column=0; column<10; column++)
```

```
            if (line<(9-column))  
                printf (" ");
```

```
            else
```

```
                printf ("*");  
                printf ("\n");
```

```
    return 0;
```

```
}
